

Sponsored articles in Current Oncology represent an easy and visible way to position your company alongside medical leadership as well as editorial excellence. Bringing targeted exposure for your company and product, a sponsored paper provides a platform to introduce new concepts or to reinforce current concepts directly into the hands of your key audience. Sponsored articles provide the opportunity to present your organization as a major provider of up-to-date, and valuable educational material that can be customized to your needs.

Special section of Current Oncology target key fields allied to health care and rehabilitation.

Sections include:

- Basic Research in Cancer
Biomarkers in Oncology
Cancer Rehabilitation & Survivorship
Integrative Therapies for Oncology
Medical Oncology
Oncologic History
Oncologic Pathology
Pediatric Oncology
Radiation Oncology
Translational Research
Updates and Developments in Oncology
Urological Oncology

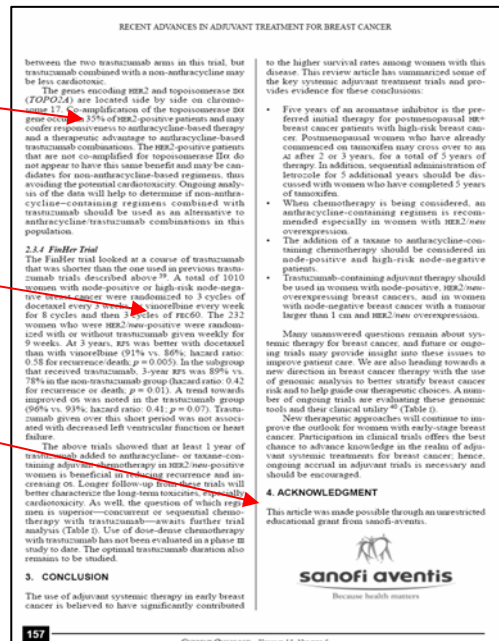

Pharmaceutical company can select an author to write the paper or refer to our expert editorial staff

Paper is reviewed in accordance to Current Oncology standards
